

ANUSHA VV

Frontend / React Developer

Kannur, Kerala, India • +91 9544060198 • anusha38vv@example.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

B.Tech graduate in Information Technology with hands-on experience building web applications using React.js, JavaScript, HTML, and CSS. Skilled in React Hooks, REST API integration using Axios, asynchronous JavaScript, and version control using Git and GitHub. Built personal and academic projects demonstrating practical frontend and web development skills. Seeking an entry-level Frontend / React Developer role.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design
APIs & Data: REST APIs, Axios, Fetch API, JSON, Asynchronous JavaScript
Developer Tools: Git, GitHub, Vite, npm, VS Code
Languages & Databases: Python, C, SQL

PROJECTS

Live Code Editor

React.js, Monaco Editor, JavaScript, CSS

GitHub | Live Demo

- Built an interactive browser-based code editor using React.js and Monaco Editor.
- Implemented live preview, multiple layouts, code saving, URL sharing, and HTML export.
- Added console output, theme controls, responsive design, and sandboxed preview.

Personal Portfolio Website

JavaScript, HTML, CSS

GitHub | Live Demo

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented mobile-friendly layouts and interactive navigation using CSS and JavaScript.
- Designed sections to showcase projects, technical skills, education, and contact information.

Music Recommendation App Based on Facial Expression

Flutter, Django, Python, Google Maps API, CNN

- Developed a music app for emotion-based recommendations.
- Implemented facial expression detection to suggest mood-matching songs.
- Worked with team members to connect emotion analysis results with music recommendations.

Diet Recommendation System

HTML, CSS, Python, Machine Learning

- Developed a web interface for users to submit inputs and view personalized diet recommendations.
- Connected user inputs to a Python backend using a Random Forest model to generate recommendations.

E-Commerce Web Application

HTML, CSS, PHP, MySQL

- Developed an e-commerce web application featuring product browsing and catalog management.
- Created web pages for product display and implemented database functionality using MySQL.
- Wrote SQL queries to store and retrieve application data.

EDUCATION

B.Tech in Information Technology

College of Engineering Thalassery

Oct 2022 – Apr 2025

CGPA: 7.55

CERTIFICATIONS

- Google Cybersecurity Certificate — Coursera
- Python Full Stack Development — TechMaghi
- Introduction to Internet of Things — NPTEL
